TECHNICAL DETAILS	Alcohol: 19,5 % vol. Sugar: 119 g/dm ³ Total Acidity: 3,9 g/dm ³ pH: 3,59
BOTTLE	750 ml
WINE TASTING	Porto of an admirable ruby still developing colour of a purple brownish hue, and fruity aroma resembling resins and dates. It is medium bodied with low alcohol content. The time spent aging in oak casks provides this wine with an accentuated character and maturity.
STORING	Is ready for drinking and will not improve if kept for a long time. The bottle should be protected from light and humidity, at a constant temperature (16°C to 18°C).
SERVING SUGGESTIONS	Great digestive for itself and also to accompany cheese such as Roquefort, ham and dry fruit. Is also a very good aperitif if served chilled.
